

POW – Problem of the week

Week 3 Solution

Problem of the week for class 1-5 -

Girls on a row

12 girls

Problem of the week for class 6-10

Café Waterloo

For instance

*5 coconut cookies + 4 chocolate balls = 4,8 euro (5x0,6= 3 and 4x0,45=1,8)
2 coconut cookies + 8 chocolate balls = 4,8 euro (2x0,6=1,2 and 8x0,45=3,6)
= coconut cookies 0,6 and chocolate balls 0,45.
= 4,8 in her wallet.)*

or

*coconut cookies 1,0 and chocolate balls 0,75 = 8 euro in her wallet
coconut cookies 1,2 and chocolate balls 0,9 = 9,6 euro in her wallet
coconut cookies 0,4 and chocolate balls 0,3 = 3,2 euro in her wallet*
