

## POW – Problem of the week

### Week 11

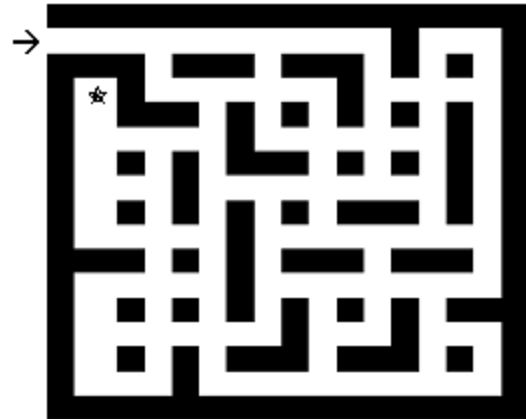

#### Problem of the week for class 1-5

*Find your way to the star*

Go from the arrow to the star, you can only go forwards and turn to the right

– not backwards and not to the left !

Make a print out and draw the answer on it

#### Problem of the week for class 6-10

*Completely squared !*

This is a squared piece of paper with a 2x2 square drawn on it (all sides same length, all angles 90°)

The area of the square is 4

Can you draw squares with the area 1 ?, 9 ?, 16 ?

- I guess so

BUT can you draw squares with the area 2 ? 5 ? 8 ? 10 ? 13 ?

– yes, it is possible !
