

POW – Problem of the week

Week 23

Problem of the week for class 1-6

Hello!

Anna has a birthday party. Five guests have arrived. Everyone says hello to each other.

How many times will the word hello be said?

Problem of the week for class 7-10

Working together

Ned needs 3 hours to distribute newspapers. Axel needs twice as much time to do the same thing. Now they will help each other.

How long does it take now to distribute the newspapers?
