

POW – Problem of the week -solution

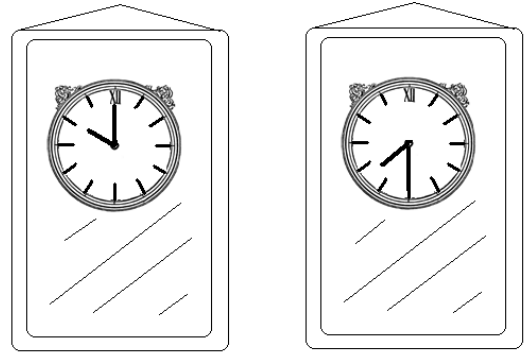

Week 6

Problem of the week for class 1-5

The old clock in the mirror

If you use a mirror – and maybe write the numbers on the clock you will see that it was two o'clock when I left and half past four when I returned.

I was away for $2\frac{1}{2}$ hours

Problem of the week for class 6-10

9 pair of students

They could go together like this:

1-15, 2-14, 3-13, 4-12, 5-11, 6-10, 7-18, 8-17, 9-16
